## PROJECTS

### AMAZON CLONE APP

April 2023 – Present

- Developed an Amazon Clone app using Flutter for the frontend and Node.js for the backend.
- Designed an intuitive and responsive user interface using Flutter, integrating with a scalable and efficient Node.js server.
- Implemented essential e-commerce features such as product listings, search, cart, signin and Signup in the app.
- Leveraged knowledge of mobile app development, UI/UX design, and server-side programming to deliver a high-quality Amazon Clone app.

### TRAVEL APP

May 2023 – Present

- Designed and developed a Travel app using Flutter with Cubit/BLoC state management for seamless and responsive user experience.
- Built models to represent app data and optimized API requests for efficient retrieval of data from server.
- Utilized Google Maps API and Geolocation services to provide location-based features and navigation within the app.
- Implemented robust error handling and caching mechanisms to ensure app stability and smooth performance.

## COURSES

### GOOGLE FLUTTER COURSE

April 2023 – Present | Udemy

- Completed a comprehensive Udemy course on Google Flutter, gaining practical experience in developing mobile applications for Android and iOS platforms using Dart programming language.
- Acquired proficient knowledge and hands-on skills in creating responsive and interactive mobile applications using Google Flutter through a highly rated Udemy course, enabling me to contribute to cross-platform app development projects.

### GOOGLE UX DESIGN COURSE

Sept 2022 – Present | Coursera

- Completed Google UX Design Course on Coursera, covering user research, design thinking, and prototyping, to improve user experiences for digital products.
- Learned user-centered design principles and methodologies through Google UX Design Course on Coursera, including design thinking and prototyping techniques, to optimize user experiences for web and mobile applications.

## PERSONAL SKILLS

- Problem Solving
- Attention to detail
- Effective communication
- Continuous learning

## EDUCATION

### SAVITRIBAI PHULE PUNE UNIVERSITY

B.Tech in Computer Engineering  
2020 - present

### PET OXFORD HIGH SCHOOL

HSC(Class XII) | 2020  
Percentage: 71.2%  
SSC(Class X) | 2018  
Percentage: 88.4%

## SKILLS

### PROFICIENT

- Flutter • Dart
- C/C++ • Python
- MySQL • JavaScript
- Ui/Ux

### FAMILIAR

- ReactJs • NodeJs

## TECHNOLOGY

- Git/Github • AWS
- Windows • Android Studio
- Figma

## COURSEWORK

### UNDERGRADUATE

Data Structures, Algorithms  
Machine Learning  
Operating Systems  
Computer Networks  
Web Development

## RESPONSIBILITY

Technical Member  
COMET CLUB'23  
G H Raisoni college  
Social Volunteer  
Hamari Pehchaan NGO
